IN THE LATIN AMERICA AND CARIBBEAN GROUP

23 – 25 APRIL 2024**

BACKGROUND

1. The Technical Secretariat of the OPCW (the Secretariat) wishes to inform Member States that a regional seminar on the Chemical Weapons Convention (the Convention) and chemical safety and security management for Member States of the OPCW in the Latin America and the Caribbean Group (GRULAC) will be held in San José, Costa Rica from 23 to 25 April 2024. National Authorities or governmental representatives responsible for chemical safety and security management, representatives from chemical industry associations, and managers involved in chemical industry safety and security and Responsible Care® are invited to submit applications for the seminar, which is being organised to further promote international cooperation programmes that focus on chemical industry outreach and industry-related aspects of the implementation of Article XI of the Convention.
2. The aim of the seminar is to support chemical safety and security management in the chemical industry in the GRULAC region. The overall goal is to sensitise States Parties to the Convention to the new approaches that can be adopted in relation to chemical safety and security management, with a particular focus on providing assistance to small and medium-sized enterprises (SMEs). By promoting and disseminating standardised and best practices in chemical safety and security, the seminar will benefit chemical industry personnel who are involved in safety and security management issues, enhance the capacities of National Authorities and chemical industry associations in Member States of the OPCW in the region, and indirectly benefit the general public as a whole.
3. The objectives of the seminar are:
 - (a) to provide an opportunity for participating Member States to consider and discuss specific chemical safety and security management issues related to chemical processes that have a direct bearing on the effective implementation of the Convention;
 - (b) to contribute to sharing information and exchanging experiences on the practical implementation of chemical safety and security management programmes;

- (c) to review best practices related to the safe and secure management of chemicals, and generate, through interactions and discussions, recommendations on the structure of future standardised seminars in order to promote these practices in SMEs in the region;
 - (d) to foster broader cooperation between States Parties on issues related to the chemical industry to ensure the achievement of the objectives of Article XI of the Convention (promoting the peaceful uses of chemistry); and
 - (e) to enhance and promote the safe handling of chemicals at the national level.
4. The seminar programme will be provided to the selected participants in due course.
